## **BANCO**— LUCA MEDA 1994

Banco, created by Luca Meda in 1994, concentrates the main cooking and washing functions in the free-standing structure, patented by Dada. A solid extrusion of aluminium supports the slimline worktop which defines the horizon of the volumes. Thus the structure stays elevated and suspended, and can be completed with base units. The new Banco redefines material contrasts and opts for black and white. The island supports the storage units below. The slim worktop rests on the aluminium frame, concealing its solid core.

### **photo finishings**

- matt white painted structure
- white Corian® worktop
- matt lacquered white cod.LO01 base unit doors and side panels
- Multitank sink
- Sga.Bello stool, matt polyurethane white cod. LO01
- dark elm cod. ES16 linear columns
- dark elm cod. ES16 L columns (with operating column 1358 mm)
- dark elm cod. ES16 Futura wall units

### **other products**

- Trolley wine-cellar by Pinuccio Borgonovo (Citterio for Dada)
